## SELECTION AND AWARD CRITERIA

### 16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

- 1) Economic and financial capacity of tenderer (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided.
  - The average turnover of the tenderer for the last two (2) years (i.e. 2010 and 2011) must be at least twice to the amount of its financial proposal(s) for the lot(s) tendered. (i.e. aggregated value in case several lots are tendered).
- 2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract)
  - The tenderer has a minimum of six (6) staff employed on permanent basis;
- 3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract)
  - For lots 1,2,3,4,5 & 6: the tenderer has worked successfully on at least 2 projects for the supply of “vehicle and workshop consumables items” in the past three years (i.e. 2011, 2010, 2009), with a budget at least equivalent to that of its financial offer(s) for the lot (s) tendered (i.e. aggregated value in case several lots are tendered), and/or as sold for a minimum of 15,000 Euros of “vehicle and workshop consumables items” during the same period of time.
  - For lots 7 : the tenderer has worked successfully on at least 2 projects for the supply of “vehicle and workshop consumables items” in the past three years i.e. (2011, 2010, 2009), with a budget at least equivalent to that of its financial offer(s) for the lot (s) tendered (i.e. aggregated value in case several lots are tendered), and/or as sold for a minimum of 50,000 Euros of “vehicle and workshop consumables items” during the same period of time

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may *not* be considered appropriate by the Contracting Authority are when the tenderer rely in majority on the capacities of other entities or when they rely on key criteria. If the tenderer rely on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.
