CORRIGENDUM No. 3

**PUBLICATION REFERENCE: EuropeAid/129828/D/SUP/XK - Supply of 4x4
Medium Size Vehicles (Framework Contract)**

A. Technical Specification (Annex II):

Item 1.1, IX. SERVICES/WARRANTIES, bullet point no. 5)

Former text was:

- 5) As Contracting Authority has its own technical facilities and staff, the Contractor shall prior commencing the delivery of vehicles, provide the Contracting Authority with appropriate hardware, software including mandatory licences; specialised tools as well as training for Contracting Authorities’ delegated technical staff to carry out full diagnostic of the vehicle’s electronic systems on at least **one workstation**. Training free of charge must be organised in an authorised service centre, in languages commonly used in Kosovo and English and concluded with a certificate. The training plus documentation provided by the Contractor shall enable Contracting Authorities’ staff to maintain and repair the vehicles in accordance with manufacturer’s standards.

Shall read as new text:

- 5) As Contracting Authority has its own technical facilities and staff, the Contractor shall prior commencing the delivery of vehicles, provide the Contracting Authority with appropriate hardware, software including mandatory licences; specialised tools as well as training for Contracting Authorities’ delegated technical staff to carry out full diagnostic of the vehicle’s electronic systems. Training free of charge must be organised in an authorised service centre, in languages commonly used in Kosovo and English and concluded with a certificate. The training

plus documentation provided by the Contractor shall enable Contracting Authorities' staff to maintain and repair the vehicles in accordance with manufacturer's standards.

The required diagnostic tools must consist on:

A combined, one full diagnostic workstation and 5 (five) processing devices to assist in basic diagnostic, including spare parts catalogue and repair manuals. Full diagnostic workstation is to be located in our Main Transport Workshop and five processing devices are to be located in main transport warehouse and four small regional workshops to enable identification of faulty parts and mutual understanding in process of spare parts purchase and repairs.
