Any tenderer may state in its tender that it would offer a discount in the event that its tender is accepted for more than one lot. Tenderers may not submit a tender for a variant solution in addition to their tender for the supplies required in the tender dossier.

11. Tender guarantee

Tenderers must provide a tender guarantee of **2,250.00 Euro** when submitting their tender. This guarantee will be released to unsuccessful tenderers once the tender procedure has been completed and to the successful tenderer(s) upon signature of the contract by all parties. This guarantee will be called upon if the tenderer does not fulfil all obligations stated in its tender.

12. Performance guarantee

The successful tenderer will be asked to provide a performance guarantee of **5%** of the amount of the contract at the signing of the contract. This guarantee must be provided together with the return of the countersigned contract no later than 30 days after the tenderer receives the contract signed by the Contracting Authority. If the selected tenderer fails to provide such a guarantee within this period, the contract will be void and a new contract may be drawn up and sent to the tenderer which has submitted the next cheapest compliant tender.

The framework contract shall be concluded for a period of one (1) year with effect on the date on which it enters into force, (although the Framework contract may be terminated at short notice. See article 36 of the special conditions of the draft contract).

The contracting authority may, at its own discretion extend this framework contract. Such extension shall be made under negotiated procedure. The contract may only be extended once, such that the duration of extension does not exceed the duration of the initial framework contract. Any extension will be conditioned and limited by the Mission’s mandate, the availability of corresponding budgetary funds and the satisfactory fulfilment of its obligations by the contractor.

SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

- 1) Economic and financial capacity of tenderer (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided.
 - the average annual turnover of the tenderer must be **equal to or exceeding its financial offer** for the **last 3 years** (2009, 2010 and 2011).
- 2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract)
 - the tenderer must have at least qualified staff, minimum seven (**7**) **Xerox service engineers** for the goods specified in annex II + III – technical specifications of the tender dossier (2 for Prishtina and 1 each for Prizren, Mitrovica, Gjilan, Peja, Ferizaj). Tenderer must provide proof that these engineers have carried out relevant Xerox training courses and all names must be supplied. If an engineer leaves the Contractor’s company, he/she must be replaced by a suitably qualified person.
 - the tenderer must provide a **Manufacturer’s Authorization Form from Xerox**; and

- The tenderer must also provide a statement from the manufacturer stating that all supplies are original Xerox (not recycled or refilled or simply compliant). Such a statement must be signed duly by an authorized person on behalf of the Manufacturer;
- 3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract)
- The tenderer has worked successfully on at least one **(1) similar project** with a budget of at least twice that of its financial offer (taking into consideration the estimated quantities of yearly consumption), **in fields related to this contract** i.e. the supply of IT Consumables for printers and photocopiers **in the past three (3) years** (2009, 2010 and 2011).

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may *not* be considered appropriate by the Contracting Authority are when the tenderer rely in majority on the capacities of other entities or when they rely on key criteria. If the tenderer rely on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.
