CLARIFICATIONS (1)

PUBLICATION REFERENCE: EuropeAid/131216/D/SUP/XK "Supply of Communication Equipment and Tools" (PROC/264/11)

1. Questions regarding Instruction to Tenderers

No	Item No/ & NO.	Question	Answer
1		Are we allowed to submit one Tender Guarantee covering the amount of all 6 lots?	The tenderer may submit either a separate tender guarantee for each lot or one tender guarantee for all lots tendering for. In case when one tender guarantee is submitted for all lots tendering, if the tenderer is awarded one lot only, the entire tender guarantee would be retained by the contracting authority until the relevant performance guarantee is provided.

2. Questions regarding Technical Specifications

No	Item No/ & NO.	Question	Answer
1	Lot. 2	PDH Microwave equipment, It is specifically asked that Stratex radio link, ECLIPSE ETSI on 7GHz, should be offered. Stratex is having, like all of the others microwave equipment vendors, their own architecture of the microwave solution (Data Access cards, Radio Access Cards, SDH Multiplexer Card, etc.). That is making other potential bidders not being able to submit their offer for this lot, so the number of companies that could bid is dramatically reduced.	ECLIPSE ETSI on 7 GHz, is EULEX current backbone equipment manufacturer. Therefore the equipment provided shall be from the same manufacturer.

		<p>Is there a possibility to alter technical specifications requested, in the way to ask for the same type of the equipment and same features, but without mentioning specific producers? It would be the best to ask for the capacity of link and interfaces that needs to be provided, along with the sizes of antennas (120 cm) and the frequency band that should be used.</p>
