16 Costs of preparing tenders

No costs incurred by the tenderer in preparing and submitting the tender are reimbursable. All such costs will be borne by the tenderer.

17 Ownership of tenders

The Contracting Authority retains ownership of all tenders received under this tender procedure. Consequently, tenderers have no right to have their tenders returned to them.

18 Joint venture or consortium

18.1 If a tenderer is a joint venture or consortium of two or more persons, the tender must be a single one with the object of securing a single contract, each person must sign the tender and will be jointly and severally liable for the tender and any contract. Those persons must designate one of their members to act as leader with authority to bind the joint venture or consortium. The composition of the joint venture or consortium must not be altered without the prior written consent of the Contracting Authority.

- 18.2 The tender may be signed by the representative of the joint venture or consortium only if it has been expressly so authorised in writing by the members of the joint venture or consortium, and the authorising contract, notarial act or deed must be submitted to the Contracting Authority in accordance with point 11 of these Instructions to Tenderers. Each member of such joint venture or consortium must provide the proof required under Article 3.5 as if it, itself, were the tenderer.

19 Opening of tenders

- 19.1 The opening and examination of tenders is for the purpose of checking whether the tenders are complete, whether the requisite tender guarantees have been furnished, whether the required documents have been properly included and whether the tenders are generally in order.
- 19.2 The tenders will be opened in public session on **08 April 2015 at 15:30hrs** at EULEX Kosovo - Procurement Section, Ndertesa Farmed, "Muharrem Fejza" p.n. Lagja e Spitalit, 10000 Pristina, Kosovo by the committee appointed for the purpose. The committee will draw up minutes of the meeting, which will be available on request.
- 19.3 At the tender opening, the tenderers' names, the tender prices, any discount offered, written notifications of alteration and withdrawal, the presence of the requisite tender guarantee (if required) and such other information as the Contracting Authority may consider appropriate may be announced.
- 19.4 After the public opening of the tenders, no information relating to the examination, clarification, evaluation and comparison of tenders, or recommendations concerning the award of the contract can be disclosed until after the contract has been awarded.
- 19.5 Any attempt by tenderers to influence the evaluation committee in the process of examination, clarification, evaluation and comparison of tenders, to obtain information on how the procedure is progressing or to influence the Contracting Authority in its decision concerning the award of the contract will result in the immediate rejection of their tenders.
- 19.6 All tenders received after the deadline for submission specified in the contract notice or these instructions will be kept by the Contracting Authority. The associated guarantees will be returned to the tenderers. No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.

20 Evaluation of tenders

20.1 Examination of the administrative conformity of tenders

The aim at this stage is to check that tenders comply with the essential requirements of the tender dossier. A tender is deemed to comply if it satisfies all the conditions, procedures and specifications in the tender dossier without substantially departing from or attaching restrictions to them.

Substantial departures or restrictions are those which affect the scope, quality or execution of the contract, differ widely from the terms of the tender dossier, limit the rights of the Contracting Authority or the tenderer's obligations under the contract or distort competition for tenderers whose tenders do comply. Decisions to the effect that a tender is not administratively compliant must be duly justified in the evaluation minutes.

If a tender does not comply with the tender dossier, it will be rejected immediately and may not subsequently be made to comply by correcting it or withdrawing the departure or restriction.

20.2 Technical evaluation

After analysing the tenders deemed to comply in administrative terms, the evaluation committee will rule on the technical admissibility of each tender, classifying it as technically compliant or non-compliant.

The minimum qualifications required (see selection criteria in Contract notice point 16) are to be evaluated at the start of this stage.

Where contracts include after-sales service and/or training, the technical quality of such services will also be evaluated by using yes/no criteria as specified in the tender dossier.

- 20.3 In the interests of transparency and equal treatment and to facilitate the examination and evaluation of tenders, the evaluation committee may ask each tenderer individually for clarification of its tender including breakdowns of prices, within a reasonable time limit to be fixed by the evaluation committee. The request for clarification and the response must be in writing, but no change in the price or substance of the tender may be sought, offered or permitted except as required to confirm the correction of arithmetical errors discovered during the evaluation of tenders pursuant to Article 20.4. Any such request for clarification must not distort competition. Decisions to the effect that a tender is not technically compliant must be duly justified in the evaluation minutes.

20.4 Financial evaluation

- a) Tenders found to be technically compliant will be checked for any arithmetical errors in computation and summation. Errors will be corrected by the evaluation committee as follows:
- where there is a discrepancy between amounts in figures and in words, the amount in words will be the amount taken into account;
 - except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will be the price taken into account.
- b) Amounts corrected in this way will be binding on the tenderer. If the tenderer does not accept them, its tender will be rejected.

20.5 Variant solutions

Variant solutions will not be taken into consideration.

20.6 Award criteria

The sole award criterion will be the price. The contract will be awarded to the lowest compliant tender.

21 Signature of the contract and performance guarantee

- 21.1 The successful tenderer will be informed in writing that its tender has been accepted (notification of award). Before the Contracting Authority signs the contract with the successful tenderer, the successful tenderer must provide the **documentary proof** or statements required under the law of the country in which the company (or each of the companies in case of a consortium) is established, to show that it is not in any of the exclusion situations listed in section 2.3.3 of the Practical Guide to contract procedures for EU external actions. This evidence or these documents or statements must carry a date not earlier than one year before the date of submission of the tender. In addition, a statement must be provided that the situations described in these documents have not changed since then.
- 21.2 The successful tenderer must also provide evidence of financial and economic standing and technical and professional capacity according to the selection criteria for this call for tenders specified in the contract notice, point 16. The documentary proofs required are listed in section 2.4.11 of the Practical Guide to contract procedures for EU external actions.

- 21.3 If the successful tenderer fails to provide the documentary proof or statement or the evidence of financial and economic standing and technical and professional capacity within 15 calendar days following the notification of award or if the successful tenderer is found to have provided false information, the award will be considered null and void. In such a case, the Contracting Authority may award the tender to the next lowest tenderer or cancel the tender procedure.
- 21.5 Within 30 days of receipt of the contract signed by the Contracting Authority, the selected tenderer must sign and date the contract and return it, with the performance guarantee (if applicable), to the Contracting Authority. On signing the contract, the successful tenderer will become the Contractor and the contract will enter into force.
- 21.6 If it fails to sign and return the contract and any financial guarantee required within 30 days after receipt of notification, the Contracting Authority may consider the acceptance of the tender to be cancelled without prejudice to the Contracting Authority's right to seize the guarantee, claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the Contracting Authority.
- 21.7 The **performance guarantee** referred to in the General Conditions is set at **5%** of the amount of the contract and must be presented in the form specified in the annex to the tender dossier. It will be released within 45 days of the issue of the final acceptance certificate by the Contracting Authority, except for the proportion assigned to after-sales service.

22 Tender guarantee

The tender guarantee referred to in Article 11 above is set at **(see below table with the amount per lot)** and must be presented in the form specified in the annex to the tender dossier. It must remain valid for 45 days beyond the period of validity of the tender. Tender guarantees provided by tenderers who have not been selected will be returned together with the information letter that the tenderer has been unsuccessful. The tender guarantee of the successful tenderer will be released on signing of the contract, once the performance guarantee has been submitted.

Lot 1	SPARE PARTS & PERIPHERALS	€250
Lot 2	SOFTWARE LICENSES	€220
Lot 3	PRINT SERVER REPLACEMENT SOFTWARE	€180

23 Ethics clauses

- 23.1 Any attempt by a candidate or tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the committee or the Contracting Authority during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of their candidacy or tender and may result in administrative penalties.
- 23.2 Without the Contracting Authority's prior written authorisation, a Contractor and its staff or any other company with which the Contractor is associated or linked may not, even on an ancillary or subcontracting basis, supply other services, carry out works or supply equipment for the project. This prohibition also applies to any other projects that could, owing to the nature of the contract, give rise to a conflict of interest on the part of the Contractor.
- 23.3. When submitting a tender, tenderers must declare that they are not affected by a conflict of interest and have no equivalent relation in that respect with other tenderers or parties involved in the project. Should such a situation arise during execution of the contract, the Contractor must immediately inform the Contracting Authority.
- 23.4 Contractors must at all times act impartially and as faithful advisers in accordance with the code of conduct of their profession. They will refrain from making public statements about the project or services without the Contracting Authority's prior approval. They may not commit the Contracting Authority in any way without its prior written consent.

- 23.5 For the duration of the contracts Contractors and their staff must respect human rights and undertake not to offend the political, cultural and religious mores of the beneficiary state. In particular and in accordance with the legal basic act concerned, tenderers that have been awarded contracts must abide by core labour standards as defined in the relevant International Labour Organisation conventions (such as the Conventions on freedom of association and collective bargaining; Abolition of forced and compulsory labour; Elimination of forced and compulsory labour; Abolition of child labour).
- 23.6 Contractors may accept no payment connected with the contracts other than that provided for therein. Contractors and their staff must not exercise any activity nor receive any advantage inconsistent with their obligations to the Contracting Authority.
- 23.7 Contractors and their staff are obliged to maintain professional secrecy for the entire duration of contracts and after their completion. All reports and documents drawn up or received by Contractors will be confidential.
- 23.8 The contract governs the Contracting Parties' use of all reports and documents drawn up, received or presented by them during the implementation of the contract.
- 23.9 Contractors must refrain from any relationship likely to compromise their independence or that of their staff. If the Contractor ceases to be independent, the Contracting Authority may, regardless of injury, terminate the contract without further notice and without the Contractor having any claim to compensation.
- 23.10 The Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process and if the Contracting Authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or implementation of a contract already concluded with the Contracting Authority.
- 23.11 All tenders will be rejected or contracts terminated if it emerges that the award or implementation of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a recipient who is not clearly identified or commissions paid to a company which has any appearance of being a front company.
- 23.12 The Contractor undertakes to supply the Commission on request with all supporting documents relating to the conditions of the contract's execution. The Commission may carry out whatever documentary or on-the-spot checks it deems necessary to find evidence in cases of suspected unusual commercial expenses.
- 23.13 Contractors found to have paid unusual commercial expenses on projects funded by the EU are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.
- 23.14 The Contracting Authority reserves the right to suspend or cancel the procedure, if the award procedure proves to have been subject to substantial errors, irregularities or fraud. Where such substantial errors, irregularities or fraud are discovered after the award of the Contract, the Contracting Authority may refrain from concluding the Contract.

24 Cancellation of the tender procedure

If a tender procedure is cancelled, tenderers will be notified by the Contracting Authority. If the tender procedure is cancelled before the tender opening session the sealed envelopes will be returned, unopened, to the tenderers.

Cancellation may occur where:

- the tender procedure has been unsuccessful, namely where no qualitatively or financially worthwhile tender has been received or there has been no valid response at all;
- the economic or technical parameters of the project have changed fundamentally;
- exceptional circumstances or *force majeure* render normal implementation of the project impossible;
- all technically compliant tenders exceed the financial resources available;
- there have been irregularities in the procedure, in particular where these have prevented fair competition;
- the award is not in compliance with sound financial management, i.e. does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market);
- The Commission decision concerning the financing agreement is not taken or if the financing agreement is not signed, (*given that this procedure is launched under “suspensive clause”*);

In no event will the Contracting Authority be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure even if the Contracting Authority has been advised of the possibility of damages. The publication of a contract notice does not commit the Contracting Authority to implement the programme or project announced.

25 Appeals

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. See section 2.4.15 of the Practical Guide.

26 Early Warning System and Central Exclusion Database

The tenderers and, if they are legal entities, persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations mentioned in:

- the European Commission Decision of 16.12.2008 on the Early Warning System (EWS) for the use of authorising officers of the Commission and the executive agencies (OJ, L 344, 20.12.2008, p.125) or
- the European Commission Regulation of 17.12.2008 on the Central Exclusion Database (CED) (OJ L344, 20.12.2008, p.12),

their personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the EWS only, or in both the EWS and CED, and communicated to the persons and entities listed in the above-mentioned Decision and Regulation, in relation to the award or the execution of a procurement contract.

Compensation for damage resulting from the Contractor's liability in respect of the Contracting Authority is capped at an amount equal to one million euros if the contract value is less than or equal to one million euros. If the contract value is greater than one million euros, compensation for damages resulting from the Contractor's liability shall be capped to the contract value.

However, compensation for loss or damage resulting from the Contractor's liability in case of bodily injury, including death, can in no case be capped. The same applies to compensation for any damages of any kind resulting from fraud or gross negligence of the Contractor, its staff, its subcontractors and any person for which the Contractor is answerable.

c) Contractor's liability in respect of third parties

The Contractor shall, at its own expense, indemnify, protect and defend, the Contracting Authority, its agents and employees, from and against all actions, claims, losses or damage, direct or indirect, of whatever nature (hereinafter "claim(s)") arising from any act or omission by the Contractor, its staff, its subcontractors and/or any person for which the Contractor is answerable, in the performance of its duties.

The Contracting Authority must notify any third party claim to the Contractor as soon as possible after the Contracting Authority becomes aware of them.

If the Contracting Authority chooses to challenge and defend itself against the claim(s), the Contractor shall bear the reasonable costs of defense incurred by the Contracting Authority, its agents and employees.

Under these general conditions, the agents and employees of the Contracting Authority, as well as the Contractor's staff, its subcontractors and any person for which the Contractor is answerable are considered to be third parties.

The Contractor shall treat all claims in close consultation with the Contracting Authority. Any settlement or agreement settling a claim requires the prior express consent of the Contracting Authority and the Contractor.

12.2. Insurance

a) Insurance – general issues

At the latest together with the return of the countersigned contract, and for the period of implementation of the tasks, the Contractor shall ensure that itself, its staff, its subcontractors and any person for which the Contractor is answerable, are adequately insured with insurance companies recognized on the international insurance market, unless the Contracting Authority has given its express written consent on a specific insurance company.

At the latest together with the return of the countersigned contract, the Contractor shall provide the Contracting Authority with all cover notes and/or certificates of insurance showing that the Contractor's obligations relating to insurance are fully respected. The Contractor shall submit without delay, whenever the Contracting Authority or the Project Manager so requests, an updated version of the cover notes and/or certificates of insurance.

The Contractor shall obtain from the insurers that they commit to personally and directly inform the Contracting Authority of any event likely to reduce, cancel or alter in any manner whatsoever, that coverage. The insurers shall deliver this information as quickly as possible, and in any event at least thirty (30) days before the reduction, cancellation or alteration of the cover is effective. The Contracting Authority reserves the right to indemnify the insurer in case the Contractor fails to pay the premium, without prejudice to the Contracting Authority's right to recover the amount of the premium it paid, and to subsequently seek compensation for its possible resulting damage.

Whenever possible, the Contractor shall ensure that the subscribed insurance contracts contain a waiver of recourse in favor of the Contracting Authority, its agents and employees.

The purchase of adequate insurances by the Contractor shall in no case exempt it from its statutory and/or contractual liabilities.

The Contractor shall fully bear the consequences of a total or partial lack of coverage, and to the full discharge of the Contracting Authority.

The Contractor shall ensure that its staff, its subcontractors and any person for which the Contractor is answerable comply with the same insurance requirements imposed to it under this contract. In case of default of insurance or inadequate insurance of its staff, its subcontractors or any person for which the Contractor is answerable, the Contractor shall indemnify the Contracting Authority from all consequences resulting therefrom.

Under its own responsibility and without prejudice to the obligation to take out all insurance covering its obligations under this contract, the Contractor shall ensure that all compulsory insurances are subscribed in compliance with the laws and regulations in force in the country in which the duties are to be performed. It shall also ensure that all possible statutory obligations applying to the coverage are complied with.

The Contracting Authority shall not bear any liability for the assessment and adequacy of insurance policies taken out by the Contractor with its contractual and/or statutory obligations.

b) Insurance – Specific issues

The Contractor shall take out all insurance necessary to cover its liability, both with regard to its professional liability and its liability as provided under Article 12.1 "Liabilities". The contractor shall in particular subscribe a Products and After delivery insurance.

Depending on the nature of the Contractor's obligations, the Contracting Authority may require that the carriage of supplies be covered by a "transportation" insurance policy; the conditions of which may be specified in the Special Conditions, which may also specify other types of insurance to be taken out by the Contractor. This insurance shall in particular cover the loading, intermediate storage, unloading, including stowage and protection, if such operations are included in the contract.

Article 13 - Programme of implementation of the tasks

13.1. If the Special Conditions so require, the Contractor shall submit a programme of implementation of the tasks for the approval of the Project Manager. The programme shall contain at least the following:

- a) the order in which the Contractor proposes to perform the contract including design, manufacture, delivery to place of receipt, installation, testing and commissioning;
- b) the time limits within which submission and approval of the drawings are required;
- c) a general description of the methods which the Contractor proposes to adopt for executing the Contract; and
- d) such further details and information as the Project Manager may reasonably require.

13.2. The Special Conditions shall specify the time limit within which the programme of implementation of the tasks must be submitted to the Project Manager for approval. They

may set time limits within which the Contractor must submit all or part of the detailed drawings, documents and items. They shall also state the deadline for the Project Manager's approval or acceptance of the programme of implementation, detailed drawings, documents and items.

- 13.3. The approval of the programme by the Project Manager shall not relieve the Contractor of any of its obligations under the contract.
- 13.4. No material alteration to the programme shall be made without the approval of the Project Manager. If, however, the progress of the implementation of the tasks does not conform to the programme, the Project Manager may instruct the Contractor to submit a revised programme in accordance with the procedure laid down in Article 13.

Article 14 - Contractor's drawings

- 14.1. If the Special Conditions so provide, the Contractor shall submit to the Project Manager for approval:
 - a) the drawings, documents, samples and/or models, according to the time limits and procedures laid down in the Special Conditions or in the programme of implementation of the tasks;
 - b) such drawings as the Project Manager may reasonably require for the implementation of the tasks.
- 14.2. If the Project Manager fails to notify its decision of approval referred to in Article 14.1 within the time limits referred to in the contract or the approved programme of implementation of the tasks, such drawings, documents, samples or models shall be deemed to be approved at the end of the time limits specified. If no time limit is specified, they shall be deemed to be approved 30 days after receipt.
- 14.3. Approved drawings, documents, samples and models shall be signed or otherwise identified by the Project Manager and shall not be departed from except as otherwise instructed by the Project Manager. Any Contractor's drawings, documents, samples or models which the Project Manager refuses to approve shall be modified to meet the requirements of the Project Manager and resubmitted by the Contractor for approval. Within 15 days of being notified of the Project Manager's remarks, the Contractor shall make the requisite corrections, adjustments etc. to the documents, drawings etc. The corrected or adjusted documents, drawings etc. shall be resubmitted for the Project Manager's approval under the same procedure.
- 14.4. The Contractor shall supply additional copies of approved drawings in the form and numbers stated in the contract or in subsequent administrative orders.
- 14.5. The approval of the drawings, documents, samples or models by the Project Manager shall not relieve the Contractor from any of its obligations under the contract.
- 14.6. The Project Manager shall have the right at all reasonable times to inspect all drawings, documents, samples or models relating to the contract at the Contractor's premises.
- 14.7. Before provisional acceptance of the supplies, the Contractor shall supply operation and maintenance manuals together with drawings, which shall be in such detail as will enable the Contracting Authority to operate, maintain, adjust and repair all parts of the supplies.

Unless otherwise stated in the Special Conditions, the manuals and drawings shall be in the language of the contract and in such forms and numbers as stated in the contract. The supplies shall not be considered completed for the purpose of provisional acceptance until such manuals and drawings have been supplied to the Contracting Authority.

Article 15 - Sufficiency of tender prices

15.1. Subject to any additional provisions which may be laid down in the Special Conditions, the Contractor shall be deemed to have satisfied itself before submitting its tender as to the correctness and sufficiency of the tender and to have taken account of all that is required for the full and proper implementation of the tasks and to have included in its rates and prices all costs related to the supplies, in particular:

- a) the costs of transport;
- b) the costs of handling, packing, loading, unloading, transit, delivery, unpacking, checking, insurance and other administrative costs in connection with the supplies. The packaging shall be the property of the Contracting Authority unless otherwise provided in the Special Conditions;
- c) the cost of documents relating to the supplies where such documents are required by the Contracting Authority;
- d) execution and supervision of on-site assembly and/or commissioning of the delivered supplies;
- e) furnishing of tools required for assembly and/or maintenance of the delivered supplies;
- f) furnishing of detailed operation and maintenance manuals for each unit of the delivered supplies, as specified in the Contract;
- g) supervision or maintenance and/or repair of the supplies, for a period of time stated in the Contract, with the stipulation that this service shall not release the Contractor from any warranty obligations under the Contract;
- h) training of the Contracting Authority's personnel, at the Contractor's factory and/or elsewhere as specified in the contract.

15.2. Since the Contractor is deemed to have determined its prices on the basis of its own calculations, operations and estimates, it shall carry out without additional charge any work that is the subject of any item whatsoever in its tender for which it neither indicates a unit price nor a lump sum.

Article 16 - Tax and customs arrangements

16.1. Save where otherwise provided in the Special Conditions, the terms of delivery of the goods shall be DDP (Delivered Duty Paid) – Incoterms 2010, International Chamber of Commerce.

Article 17 - Patents and licences

- 17.1. Save where otherwise provided in the Special Conditions, the Contractor shall indemnify and hold the Contracting Authority harmless for all damages and cost incurred due to any claim brought by any third party including creators and intermediaries for alleged or actual violations of intellectual, industrial or other property rights of any kind whatsoever based on the Contracting Authority's use as specified in the contract of patents, licenses, drawings, designs, models, or brand or trademarks, except where such infringement results from compliance with the design or specification provided by the Contracting Authority.

IMPLEMENTATION OF THE TASKS AND DELAYS

Article 18 - Commencement order

- 18.1. Subject to the Special Conditions, the Contracting Authority shall fix the date on which implementation of the tasks is to commence and advise the Contractor thereof either in the notification of award of the contract or by administrative order.
- 18.2. Save where the Parties agree otherwise, implementation of the tasks shall begin no later than 90 days following notification of award of contract. Unless this delay results from the Contractor default, after that date the Contractor shall be entitled not to implement the contract and to obtain its termination and/or compensation for the damage it has suffered. The Contractor shall forfeit this right unless it exercises it within 30 days of the expiry of the 90-day period.

Article 19 - Period of implementation of the tasks

- 19.1. The period of implementation of tasks shall commence on the date fixed in accordance with Article 18 and shall be as laid down in the Special Conditions, without prejudice to extensions of the period which may be granted under Article 20.
- 19.2. If provision is made for distinct periods of implementation of the tasks for separate lots, in cases where one Contractor is awarded more than one lot per contract, the periods of implementation of the tasks for the separate lots shall not be accumulated.

Article 20 - Extension of period of implementation of the tasks

- 20.1. The Contractor may request an extension to the period of implementation of the tasks if it is or will be delayed in completing the contract by any of the following reasons:
 - a) exceptional weather conditions in the country of the Contracting Authority which may affect installation or erection of the supplies;
 - b) artificial obstructions or physical conditions which may affect delivery of the supplies, which could not reasonably have been foreseen by an experienced contractor;
 - c) administrative orders affecting the date of completion other than those arising from the Contractor's default;
 - d) failure of the Contracting Authority to fulfil its obligations under the Contract;

- e) any suspension of the delivery and/or installation of the supplies which is not due to the Contractor's default;
 - f) force majeure;
 - g) extra or additional supplies ordered by the Contracting Authority;
 - h) any other causes referred to in these General Conditions which are not due to the Contractor's default.
- 20.2. If the Contractor considers himself to be entitled to any extension of the period of implementation under the Contract, the Contractor shall
- a) give notice to the Project Manager of its intention to make such a request no later than 15 days after the Contractor became aware, or should have become aware of the event or circumstance giving rise to the request.
 - b) If the Contractor fails to give notice of a request for extension of the period of implementation within such period of 15 days, the period of implementation shall not be extended and the Contracting Authority shall be discharged from all liability in connection with the request; and
 - c) submit to the Project Manager full and detailed particulars of the request, within 30 days from the above notification unless otherwise agreed between the Contractor and the Supervisor, in order that such request may be investigated at the time.
- 20.3. Within 30 days from the receipt of the Contractor's detailed particulars of the request, the Project Manager shall in agreement with the Contracting Authority, by notice to the Contractor, grant such extension of the period of implementation of the tasks as may be justified, either prospectively or retrospectively, or inform the Contractor that it is not entitled to an extension.

Article 21 - Delays in implementation of the tasks

- 21.1. If the Contractor fails to deliver any or all of the goods or perform the services within the period of implementation of the tasks specified in the Contract, the Contracting Authority shall, without formal notice and without prejudice to its other remedies under the Contract, be entitled to liquidated damages for every day, or part thereof, which shall elapse between the end of the period of implementation of the tasks, or extended period of implementation of the tasks under article 20, and the actual date of completion. The daily rate of liquidated damages is 5/1000 of the value of the undelivered supplies to a maximum of 15% of the total contract price.
- 21.2. If the non-delivery of any of the goods prevents the normal use of the supplies as a whole, the liquidated damages provided for in Article 21.1 shall be calculated on the basis of the total contract price.
- 21.3. If the Contracting Authority has become entitled to claim at least 15% of the total contract price it may, after giving notice to the Contractor:
- seize the performance guarantee; and/or
 - terminate the Contract,
 - enter into a contract with a third party for the provision of the balance of the supplies at the Contractor's cost.

Article 22 - Amendments

- 22.1. Contract amendments must be formalised by a contract addendum signed by both parties or by an administrative order issued by the Project Manager or the Contracting Authority. Substantial amendments to the contract, including amendments to the total contract price, must be made by means of an addendum. Any contractual amendments must respect the general principles defined in the Practical Guide.
- 22.2. Subject to the limits of the procedure thresholds set in the Practical Guide, the Contracting Authority reserves the right to vary by an administrative order the quantities by +/- 100 % at the time of contracting and during the validity of the Contract. The total value of the supplies may not rise or fall as a result of the variation by more than 25% of the tender price. The unit prices quoted in the tender shall be applicable to the quantities procured under the variation.
- 22.3. The Project Manager and the Contracting Authority shall have the power to order any amendment to any part of the supplies necessary for the proper completion and/or functioning of the supplies. Such amendments by administrative order may include additions, omissions, substitutions, changes in quality, quantity, form, character, kind, as well as in drawings, designs or specifications where the supplies are to be specifically manufactured for the Contracting Authority, in method of shipment or packing, place of delivery, and in the specified sequence, method or timing of implementation of the tasks. No administrative order shall have the effect of invalidating the contract, but the financial effect, if any, of all such amendments shall be valued in accordance with Article 22.7.
- 22.4. All administrative orders shall be issued in writing, it being understood that:
- a) if, for any reason, the Project Manager or the Contracting Authority finds it necessary to give an order orally, it shall as soon as possible thereafter confirm the order by an administrative order;
 - b) if the Contractor confirms in writing an oral order given for the purpose of Article 22.4.a and the confirmation is not contradicted in writing forthwith by the Project Manager or the Contracting Authority, the Project Manager or the Contracting Authority shall be deemed to have issued an administrative order;
 - c) no administrative order is required to increase or decrease the quantity of any incidental siting or installation because the estimates in the budget breakdown were too high or too low.
- 22.5. Save where Article 22.4 provides otherwise, prior to issuing an administrative order, the Project Manager or the Contracting Authority shall notify the Contractor of the nature and form of such amendment. The Contractor shall then, without delay, submit to the Project Manager a written proposal containing:
- a description of the tasks, if any, to be performed or the measures to be taken and a programme of implementation of the tasks;
 - any necessary amendments to the programme of implementation of the tasks or to any of the Contractor's obligations resulting from this contract; and
 - any adjustment to the total contract price in accordance with the rules set out in Article 22.

- 22.6. Following the receipt of the Contractor's submission referred to in Article 22.5, the Project Manager shall, after due consultation with the Contracting Authority and, where appropriate, the Contractor, decide without delay whether or not to accept the amendment. If the Project Manager accepts the amendment, it shall notify the Contractor through an administrative order stating that the Contractor shall carry out the amendment at the prices and under the conditions given in the Contractor's submission referred to in Article 22.5 or as modified by the Project Manager in accordance with Article 22.7.
- 22.7. The prices for all amendments ordered by the Project Manager or the Contracting Authority in accordance with Articles 22.4 and 22.6 shall be ascertained in accordance with the following principles:
- where the task is of similar character and implemented under similar conditions as an item priced in the budget breakdown, it shall be valued at such rates and prices contained therein;
 - where the task is not of a similar character or is not implemented under similar conditions, the rates and prices in the contract shall be used as the basis for valuation as far as is reasonable, failing which the Project Manager shall make a fair valuation;
 - if the nature or amount of any amendment relative to the nature or amount of the whole contract or to any part thereof is such that, in the opinion of the Project Manager, any rate or price contained in the contract for any item of work is, by reason of such amendment, rendered unreasonable, the Project Manager shall fix such rate or price as he thinks reasonable and proper in the circumstances;
 - where an amendment is required by a default or breach of contract by the Contractor, any additional cost attributable to such amendment shall be borne by the Contractor.
- 22.8. On receipt of the administrative order, the Contractor shall carry out the requested amendment according to the following principles:
- a) The Contractor shall be bound by these General Conditions as if the amendment requested by administrative order were stated in the contract.
 - b) The Contractor shall not delay the execution of the administrative order pending the granting of any extension of time for completion or adjustment to the total contract price.
 - c) Where the administrative order precedes the adjustment to the total contract price, the Contractor shall keep records of the costs of undertaking the amendment and of the time expended thereon. Such records shall be open to inspection by the Project Manager at all reasonable times.
- 22.9. The Contractor shall notify the Contracting Authority of any change of bank account, using the form in Annex V. The Contracting Authority shall have the right to oppose the Contractor's change of bank account.

Article 23 - Suspension

- 23.1. The Contractor shall, on the order of the Contracting Authority, suspend the execution of the contract or any part thereof for such time or times and in such manner as the Contracting Authority may consider necessary. The suspension shall take effect on the day the Contractor receives the order or at a later date when the order so provides.

23.2. Suspension in the event of presumed substantial errors or irregularities or fraud:

The Contract may be suspended in order to verify whether presumed substantial errors or irregularities or fraud occurred during the award procedure or the performance of the contract. If these are not confirmed, performance of the contract shall resume as soon as possible.

23.3. During the period of suspension, the Contractor shall protect and secure the supplies affected at the Contractor's warehouse or elsewhere, against any deterioration, loss or damage to the extent possible and as instructed by the Project Manager, even if supplies have been delivered to the place of acceptance in accordance with the contract but their installation has been suspended by the Project Manager.

23.4. Additional expenses incurred in connection with such protective measures may be added to the total contract price, unless:

- a) otherwise provided for in the contract; or
- b) such suspension is necessary by reason of some breach or default of the Contractor;
or
- c) such suspension is necessary by reason of normal climatic conditions at the place of acceptance; or
- d) such suspension is necessary for the safety or the proper execution of the contract or any part thereof insofar as such necessity does not arise from any act or default by the Project Manager or the Contracting Authority or
- e) the presumed substantial errors or irregularities or fraud mentioned in article 23.2 are confirmed and attributable to the Contractor.

23.5. The Contractor shall only be entitled to such additions to the total contract price if it notifies the Project Manager, within 30 days after receipt of the order to suspend the contract, of its intention to claim them.

23.6. The Contracting Authority, after consulting the Contractor, shall determine such additions to the total contract price and/or extension of the period of performance to be granted to the Contractor in respect of such claim as shall, in the opinion of the Contracting Authority, be fair and reasonable.

23.7. The Contracting Authority shall, as soon as possible, order the Contractor to resume the contract suspended or inform the Contractor that it terminates the contract. If the period of suspension exceeds 180 days and the suspension is not due to the Contractor's breach or default, the Contractor may, by notice to the Contracting Authority, request to proceed with the contract within 30 days, or terminate the contract.

MATERIALS AND WORKMANSHIP

Article 24 - Quality of supplies

- 24.1. The supplies must in all respects satisfy the technical specifications laid down in the contract and conform in all respects to the drawings, surveys, models, samples, patterns and other requirements in the contract, which shall be held at the disposal of the Contracting Authority or the Project Manager for the purposes of identification throughout the period of execution.
- 24.2. Any preliminary technical acceptance stipulated in the Special Conditions shall be the subject of a request sent by the Contractor to the Project Manager. The request shall indicate the reference to the contract, specify the materials, items and samples submitted for such acceptance according to the contract and indicate the lot number and the place where acceptance is to take place, as appropriate. The materials, items and samples specified in the request must be certified by the Project Manager as meeting the requirements for such acceptance prior to their incorporation in the supplies.
- 24.3. Even if materials or items to be incorporated in the supplies or in the manufacture of components to be supplied have been technically accepted in this way, they may still be rejected if a further examination reveals defects or faults, in which case they must immediately be replaced by the Contractor. The Contractor may be given the opportunity to repair and make good materials and items which have been rejected, but such materials and items will be accepted for incorporation in the supplies only if they have been repaired and made good to the satisfaction of the Project Manager.

Article 25 - Inspection and testing

- 25.1. The Contractor shall ensure that the supplies are delivered to the place of acceptance in time to allow the Project Manager to proceed with acceptance of the supplies. The Contractor is deemed to have fully appreciated the difficulties which it might encounter in this respect, and it shall not be permitted to advance any grounds for delay in fulfilling its obligations.
- 25.2. The Project Manager shall be entitled to inspect, examine measure and test the components, materials and workmanship, and check the progress of preparation, fabrication or manufacture of anything being prepared, fabricated or manufactured for delivery under the contract, in order to establish whether the components, materials and workmanship are of the requisite quality and quantity. This shall take place at the place of manufacture, fabrication, preparation or at the place of acceptance or at such other places as may be specified in the Special Conditions.
- 25.3. For the purposes of such tests and inspections, the Contractor shall:
 - a) provide to the Project Manager, temporarily and free of charge, with such assistance, test samples or parts, machines, equipment, tools, labour, materials, drawings and production data as are normally required for inspection and testing;
 - b) agree, with the Project Manager, on the time and place for tests;
 - c) provide access to the Project Manager at all reasonable times to the place where the tests are to be carried out.

- 25.4. If the Project Manager is not present on the date agreed for tests, the Contractor may, unless otherwise instructed by the Project Manager, proceed with the tests, which shall be deemed to have been made in the Project Manager's presence. The Contractor shall immediately send duly certified copies of the test results to the Project Manager, who shall, if it has not attended the test, be bound by the test results.
- 25.5. When components and materials have passed the above-mentioned tests, the Project Manager shall notify the Contractor or endorse the Contractor's certificate to that effect.
- 25.6. If the Project Manager and the Contractor disagree on the test results, each shall give a statement of its views to the other within 15 days of such disagreement arises. The Project Manager or the Contractor may require such tests to be repeated on the same terms and conditions or, if either Party so requests, by an expert selected by common consent. All test reports shall be submitted to the Project Manager, who shall communicate the results of these tests without delay to the Contractor. The results of retesting shall be conclusive. The cost of retesting shall be borne by the Party whose views are proved wrong by the retesting.
- 25.7. In the performance of their duties, the Project Manager and any person authorised by him shall not disclose to unauthorised persons information concerning the undertaking's methods of manufacture and operation obtained through inspection and testing.

PAYMENTS

Article 26 - General principles

- 26.1. Payments shall be made in euro or national currency as specified in the Special Conditions. The Special Conditions shall lay down the administrative or technical conditions governing payments of pre-financing and final payments made in accordance with the General Conditions.
- 26.2. Payments due by the Contracting Authority shall be made to the bank account mentioned on the financial identification form completed by the Contractor. The same form, annexed to the invoice, must be used to report changes of bank account.
- 26.3. Pre-financing payment shall be made within 30 days from the date on which an admissible invoice is registered by the Contracting Authority. The invoice shall not be admissible if one or more essential requirements are not met. Final payment shall be made within 60 days from the date on which an invoice is registered by the Contracting Authority, together with the request for provisional acceptance as per article 31.2. The date of payment shall be the date on which the paying account is debited.
- 26.4. The period referred to in article 26.3 may be suspended by notifying the Contractor that the invoice cannot be fulfilled because the sum is not due, because appropriate substantiating documents have not been provided or because there is evidence that the expenditure might not be eligible. In the latter case, an inspection may be carried out on the spot for the purpose of further checks. The Contractor shall provide clarifications, modifications or further information within 30 days of being asked to do so. The payment period shall continue to run from the date on which a properly drawn-up invoice is registered.

- 26.5. The payments shall be made as follows:
- a) 40% of the total contract price after the signing of the contract, against provision of the performance guarantee and of a pre-financing guarantee for the full amount of the pre-financing payment, unless otherwise provided for in the Special Conditions. The performance guarantee shall be provided to the Contracting Authority following the procedure foreseen for the performance guarantee in accordance with Article 11, and in accordance with the format annexed to the contract. The pre-financing guarantee must remain valid until it is released 45 days at the latest after the provisional acceptance of the goods. Where the contractor is a public body, the obligation for a pre-financing guarantee may be waived depending on a risk assessment made;
 - b) 60% of the total contract price, as payment of the balance, after receipt by the Contracting Authority of an invoice and of the application for the certificate of provisional acceptance;
- 26.6. Where only part of the supplies has been delivered, the 60% payment due following partial provisional acceptance shall be calculated on the value of the supplies which have actually been accepted and the security shall be released accordingly.
- 26.7. For supplies not covered by a warranty period, the payments listed above shall be aggregated. The conditions to which the payments of pre-financing and final payments are subject, shall be as stated in the Special Conditions.
- 26.8. The payment obligations of the European Commission under this contract shall cease at most 18 months after the end of the period of implementation of the tasks, unless the contract is terminated in accordance with these General Conditions.
- 26.9. Unless otherwise stipulated in the Special Conditions, the contract shall be at fixed prices, which shall not be revised.
- 26.10. The Contractor undertakes to repay any amounts paid in excess of the final amount due to the Contracting Authority before the deadline indicated in the debit note which is 45 days from the issuing of that note. Should the Contractor fail to make repayment within the above deadline, the Contracting Authority may (unless the Contractor is a government department or public body of a Member State of the European Union) increase the amounts due by adding interest:
- at the rediscount rate applied by the central bank of the country of the Contracting Authority if payments are in the currency of that country;
 - at the rate applied by the European Central Bank to its main refinancing transactions in euro, as published in the Official Journal of the European Union, C series, where payments are in euro,
- on the first day of the month in which the time-limit expired, plus eight percentage points. The default interest shall be incurred over the time which elapses between the date of the payment deadline, and the date on which payment is actually made. Any partial payments shall first cover the interest thus established.

Amounts to be repaid to the Contracting Authority may be offset against amounts of any kind due to the Contractor. This shall not affect the Parties' right to agree on payment in instalments. Bank charges arising from the repayment of amounts due to the Contracting Authority shall be borne entirely by the Contractor.

Without prejudice to the prerogative of the Contracting Authority, if necessary, the European Union may as donor proceed itself to the recovery by any means.

- 26.11. If the contract is terminated for any reason whatsoever, the guarantee securing the pre-financing may be invoked forthwith in order to repay the balance of the pre-financing still owed by the Contractor, and the guarantor shall not delay payment or raise objection for any reason whatever.
- 26.12. Prior to, or instead of, terminating the contract as provided for in Article 36, the Contracting Authority may suspend payments as a precautionary measure without prior notice.
- 26.13. Where the award procedure or the performance of the contract proves to have been subject to substantial errors, irregularities or fraud attributable to the Contractor, the Contracting Authority may in addition to the possibility to suspend the performance of the contract in accordance with Article 23.2 and to terminate the contract as provided for in Article 36, refuse to make payments and/or recover amounts already paid, in proportion to the seriousness of the errors, irregularities or fraud.

Article 27 - Payment to third parties

- 27.1. Orders for payments to third parties may be carried out only after an assignment made in accordance with Article 5. The assignment shall be notified to the Contracting Authority.
- 27.2. Notification of beneficiaries of the assignment shall be the sole responsibility of the Contractor.
- 27.3. In the event of a legally binding attachment of the property of the Contractor affecting payments due to him under the contract, and without prejudice to the time limit laid down in Article 26, the Contracting Authority shall have 30 days, starting from the day on which it receives notification of the definitive lifting of the obstacle to payment, to resume payments to the Contractor.

Article 28 - Delayed payments

- 28.1. The Contracting Authority shall pay the Contractor sums due in accordance with Article 26.3.
- 28.2. Once the time-limit referred to in Article 26.3 has expired, the Contractor – unless the contractor is a government department or public body in European Union Member State- shall, within two months of receipt of the late payment, receive default interest:
- at the rediscount rate applied by the central bank of the the Partner country if payments are in the currency of that country ;
 - at the rate applied by the European Central Bank to its main refinancing transactions in euro, as published in the Official Journal of the European Union, C series, if payments are in euro,

on the first day of the month in which the time-limit expired, plus eight percentage points. The interest shall be payable for the time elapsed between the expiry of the payment deadline and the date on which the Contracting Authority's account is debited. - 29.2. The Contractor shall provide such packaging of supplies as is required to prevent their damage or deterioration in transit to their destination as indicated in the contract. The packaging shall be sufficient to withstand, without limitation, rough handling, exposure to extreme temperatures, salt and precipitation during transit and open storage. Package size and weight shall take into consideration, where appropriate, the remoteness of the final destination of the supplies, and the possible absence of heavy handling facilities at all points in transit.
- 29.3. The packaging, marking and documentation inside and outside the packages shall comply with such requirements as shall be expressly provided for in the Special Conditions, subject to any amendments subsequently ordered by the Project Manager or the Contracting Authority.
- 29.4. No supplies shall be shipped or delivered to the place of acceptance until the Contractor has received a delivery order from the Project Manager. The Contractor shall be responsible for the delivery at the place of acceptance of all supplies and supplier's equipment required for the purpose of the contract.
- 29.5. Each delivery must be accompanied by a statement drawn up by the Contractor. This statement shall be as specified in the Special Conditions.
- 29.6. Each package shall be clearly marked in accordance with the Special Conditions.
- 29.7. Delivery shall be deemed to have been made when there is written evidence available to both Parties that delivery of the supplies has taken place in accordance with the terms of the contract, and the invoice(s) and all such other documentation specified in the Special Conditions, have been submitted to the Contracting Authority. Where the supplies are delivered to an establishment of the Contracting Authority, the latter shall bear the responsibility of bailee, in accordance with the requirements of the law applicable to the contract, during the time which elapses between delivery for storage and acceptance.

Article 30 - Verification operations

- 30.1. The supplies shall not be accepted until the prescribed verifications and tests have been carried out at the expense of the Contractor. The verifications and tests may be conducted before shipment, at the point of delivery and/or at the final destination of the goods.
- 30.2. The Project Manager shall, during the progress of the delivery of the supplies and before the supplies are taken over, have the power to order or decide:
 - a) the removal from the place of acceptance, within such time or times as may be specified in the order, of any supplies which, in the opinion of the Project Manager, are not in accordance with the contract;
 - b) their replacement with proper and suitable supplies;
 - c) the removal and proper re-installation, notwithstanding any previous test thereof or of any installation which in respect of materials, workmanship or design for which the Contractor is responsible, is not, in the opinion of the Project Manager, in accordance with the contract;
 - d) that any work done or goods supplied or materials used by the Contractor is or are not in accordance with the contract, or that the supplies or any portion thereof do not fulfil the requirements of the contract.
- 30.3. The Contractor shall, with all speed and at its own expense, make good the defects so specified. If the Contractor does not comply with such order, the Contracting Authority shall be entitled to employ other persons to carry out the orders and all expenses consequent thereon or incidental thereto shall be deducted by the Contracting Authority from any monies due or which may become due to the Contractor.
- 30.4. Supplies which are not of the required quality shall be rejected. A special mark may be applied to the rejected supplies. This shall not be such as to alter them or affect their commercial value. Rejected supplies shall be removed by the Contractor from the place of acceptance, if the Project Manager so requires, within a period which the Project Manager shall specify, failing which they shall be removed as of right at the expense and risk of the Contractor. Any works incorporating rejected materials shall be rejected.
- 30.5. The provisions of Article 30 shall not affect the right of the Contracting Authority to claim under Article 21, nor shall it in any way release the Contractor from any warranty or other obligations under the contract.

Article 31 - Provisional acceptance

- 31.1. The supplies shall be taken over by the Contracting Authority when they have been delivered in accordance with the contract, have satisfactorily passed the required tests, or have been commissioned as the case may be, and a certificate of provisional acceptance has been issued or is deemed to have been issued.
- 31.2. The Contractor may apply, by notice to the Project Manager, for a certificate of provisional acceptance when supplies are ready for provisional

acceptance. The Project Manager shall within 30 days of receipt of the Contractor's application either:

- issue the certificate of provisional acceptance to the Contractor with a copy to the Contracting Authority stating, where appropriate, his reservations, and, inter alia, the date on which, in his opinion, the supplies were completed in accordance with the contract and ready for provisional acceptance; or
- reject the application, giving his reasons and specifying the action which, in his opinion, is required of the Contractor for the certificate to be issued.

The Contracting Authority's time limit for issuing the certificate of provisional acceptance to the Contractor shall be considered included in the time limit for payments indicated in Article 26.3, unless otherwise specified in the Special Conditions.

- 31.3. Should exceptional circumstances make it impossible to proceed with the acceptance of the supplies during the period fixed for provisional or final acceptance, a statement certifying such impossibility shall be drawn up by the Project Manager after consultation, where possible, with the Contractor. The certificate of acceptance or rejection shall be drawn up within 30 days following the date on which such impossibility ceases to exist. The Contractor shall not invoke these circumstances in order to avoid the obligation of presenting the supplies in a state suitable for acceptance.
- 31.4. If the Project Manager fails either to issue the certificate of provisional acceptance or to reject the supplies within the period of 30 days, it shall be deemed to have issued the certificate on the last day of that period, except where the certificate of provisional acceptance is deemed to constitute a certificate of final acceptance. In this case, Article 34.2 below does not apply. If the supplies are divided by the contract into lots, the Contractor shall be entitled to apply for separate certificates for each of the lots.
- 31.5. In case of partial delivery, the Contracting Authority reserves the right to give partial provisional acceptance.
- 31.6. Upon provisional acceptance of the supplies, the Contractor shall dismantle and remove temporary structures as well as materials no longer required for use in connection with the implementation of the contract. It shall also remove any litter or obstruction and redress any change in the condition of the place of acceptance as required by the contract.
- 31.7. Immediately after provisional acceptance, the Contracting Authority may make use of all the supplies delivered.

Article 32 - Warranty obligations

- 32.1. The Contractor shall warrant that the supplies are new, unused, of the most recent models and incorporate all recent improvements in design and materials, unless otherwise provided in the contract. The Contractor shall further warrant that all supplies shall have no defect arising from design, materials or workmanship, except insofar as the design or materials are required by the specifications, or from any act or omission, that may develop under use of the supplies in the conditions obtaining in the country of the Contracting Authority.

- 32.2. The Contractor shall be responsible for making good any defect in, or damage to, any part of the supplies which may appear or occur during the warranty period and which:

 - b) results from any act or omission of the Contractor during the warranty period; and/or
 - c) appears in the course of an inspection made by, or on behalf of, the Contracting Authority.
- 32.3. The Contractor shall at its own cost make good the defect or damage as soon as practicable. The warranty period for all items replaced or repaired shall recommence from the date when the replacement or repair was made to the satisfaction of the Project Manager. If the contract provides for partial acceptance, the warranty period shall be extended only for the part of the supplies affected by the replacement or repair.
- 32.4. If any such defect appears or such damage occurs during the warranty period, the Contracting Authority or the Project Manager shall notify the Contractor. If the Contractor fails to remedy a defect or damage within the time limit stipulated in the notification, the Contracting Authority may:
- a) remedy the defect or the damage itself, or employ someone else to carry out the tasks at the Contractor's risk and cost, in which case the costs incurred by the Contracting Authority shall be deducted from monies due to or from guarantees held against the Contractor or from both; or
 - b) terminate the contract.
- 32.5. In case of emergency, where the Contractor cannot be reached immediately or, having been reached, is unable to take the measures required, the Contracting Authority or the Project Manager may have the tasks carried out at the expense of the Contractor. The Contracting Authority or the Project Manager shall as soon as practicable inform the Contractor of the action taken.
- 32.6. The warranty obligations shall be stipulated in the Special Conditions and technical specifications.
- 32.7. Save where otherwise provided in the Special Conditions, the duration of the warranty period shall be 365 days. The warranty period shall commence on the date of provisional acceptance and may recommence in accordance with Article 32.3.

Article 33 - After-sales service

- 33.1. An after-sales service, if required by the contract, shall be provided in accordance with the details stipulated in the Special Conditions. The Contractor shall undertake to carry out or have carried out the maintenance and repair of supplies

and to provide a rapid supply of spare parts. The Special Conditions may specify that the Contractor must provide any or all of the following materials, notifications and documents pertaining to spare parts manufactured or distributed by the Contractor:

- a) such spare parts as the Contracting Authority may choose to purchase from the Contractor, it being understood that this choice shall not release the Contractor from any warranty obligations under the contract;
- b) in the event of termination of production of the spare parts, advance notification to the Contracting Authority to allow it to procure the parts required and, following such termination, provision at no cost to the Contracting Authority of the blueprints, drawings and specifications of the spare parts, if and when requested.

Article 34 - Final acceptance

- 34.1. Upon expiry of the warranty period, or where there is more than one such period, upon expiry of the latest period, and when all defects or damage have been rectified, the Project Manager shall issue the Contractor a final acceptance certificate and a copy thereof to the Contracting Authority, stating the date on which the Contractor completed its obligations under the contract to the Project Manager's satisfaction. The final acceptance certificate shall be issued by the Project Manager within 30 days after the expiration of the warranty period or as soon as any repairs ordered under Article 32 have been completed to the satisfaction of the Project Manager.
- 34.2. The contract shall not be considered to have been performed in full until the final acceptance certificate has been signed or is deemed to have been signed by the Project Manager.
- 34.3. Notwithstanding the issue of the final acceptance certificate, the Contractor and the Contracting Authority shall remain liable for the fulfilment of any obligation incurred under the contract prior to the issue of the final acceptance certificate which remains unperformed at the time that final acceptance certificate is issued. The nature and extent of any such obligation shall be determined by reference to the provisions of the contract.

The Contracting Authority may, thereafter, conclude any other contract with a third party, at the Contractor's own expense. The Contractor's liability for delay in completion shall immediately cease when the Contracting Authority terminates the contract without prejudice to any liability thereunder that may already have arisen.

36.4. Upon termination of the contract or when it has received notice thereof, the Contractor shall take immediate steps to bring the implementation of the tasks to a close in a prompt and orderly manner and to reduce expenditure to a minimum.

36.5. The Project Manager shall, as soon as possible after termination, certify the value of the supplies and all sums due to the Contractor as at the date of termination.

A statement shall also be drawn up of monies due to the Contractor and of monies owed by the Contractor to the Contracting Authority as at the date of termination of the contract.

- 36.7. The Contracting Authority shall not be obliged to make any further payments to the Contractor until the supplies are completed. After the supplies are completed, the Contracting Authority shall recover from the Contractor the extra costs, if any, of providing the supplies, or shall pay any balance still due to the Contractor.
- 36.8. If the Contracting Authority terminates the contract pursuant to Article 36.2, it shall, in addition to the extra costs for completion of the contract and without prejudice to its other remedies under the contract, be entitled to recover from the Contractor any loss it has suffered up to the value of the supply unless otherwise provided for in the Special Conditions.

- 38.3. Notwithstanding the provisions of Articles 21 and 36, the Contractor shall not be liable to forfeiture of its performance guarantee, liquidated damages or termination for default if, and to the extent that, its delay in performance or other failure to perform its obligations under the contract is the result of an event of *force majeure*. The Contracting Authority shall similarly not be liable, notwithstanding the provisions of Articles 28 and 37, for the payment of interest on delayed payments, for non-performance or for termination by the Contractor for default if, and to the extent that, the Contracting Authority's delay or other failure to perform its obligations is the result of *force majeure*.

- 38.6. If circumstances of *force majeure* have occurred and continue for a period of 180 days then, notwithstanding any extension of time for completion of the contract that the Contractor may by reason thereof have been granted, either Party shall be entitled to serve upon the other with 30 days' notice to terminate the contract. If, at the expiry of the period of 30 days, the situation of *force majeure* persists, the contract shall be terminated and, in consequence thereof under the law governing the contract, the parties shall be released from further performance of the contract.

The other party shall respond to this request for amicable settlement within 30 days, stating its position on the dispute. Unless the parties agree otherwise, the maximum time period laid down for reaching an amicable settlement shall be 120 days from the date of the notification requesting such a procedure. - 40.3. In the absence of an amicable settlement, a party may notify the other party requesting a settlement through conciliation by a third person. A: European Union Rule of Law Mission in Kosovo (EULEX Kosovo), Ndertesa Farmed, St. Muharrem Fejza p.n., Lagja e Spitalit P.O. Box 268, 10000 Pristina-Kosovo.

One signed form must be supplied (for each lot, if the tender procedure is divided into lots), together with the number of copies specified in the Instruction to Tenderers. The form must include a signed declaration using the annexed format from each legal entity making the application. Any additional documentation (brochure, letter, etc.) sent with the form will not be taken into consideration. Applications being submitted by a consortium (i.e. either a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure) must follow the instructions applicable to the consortium leader and its members. The attachments to this submission form (i.e. declarations, statements, proofs) may be in original or copy. If copies are submitted, the originals must be dispatched to the Contracting Authority upon request. For economical and ecological reasons, we strongly recommend that you submit your files on paper-based materials (no plastic folder or divider). We also suggest you use double-sided print-outs as much as possible.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator.
